

Dr. Kiran Sood is a Professor at Chitkara Business School, Chitkara University, Punjab, India, specializing in insurance, finance, risk management, fintech, and emerging technologies in financial services. She holds a PhD in Insurance and completed her postdoctoral research in insurance at the University of Uşak, Turkey. She is also a Certified Enterprise Risk Management (ERM) professional, with significant academic and research contributions in insurance, finance, and risk studies.

Dr. Sood has established a strong international academic profile through her teaching, research, and scholarly engagements across Europe and Asia. She serves as an Affiliate Professor at the University of Malta, where she taught insurance under the Erasmus programme in November 2023. In July–August 2024, she was invited to deliver a nine-day teaching module on Forensic Accounting at the “Ukshin Hoti” University Summer School in Prizren, Kosovo. She also serves as a Research Fellow at the Women Researchers Council, Azerbaijan State University of Economics (UNEC). Continuing her global academic engagements, she taught MBA Executive courses at UNEC during April–June 2025. Further strengthening her international academic presence, Dr. Sood joined Haxhi Zeka University, Peja, Kosovo, as a Visiting Professor with effect from 1 April 2025.

Dr. Sood is actively engaged in editorial and peer-review activities within the global academic community. She recently joined the *Cureus Journal of Business and Economics (CJBE)*, part of the *Curious Journals – A Springer Nature Trustworthy AI Series*, as an Associate Editor. She also serves as an international reviewer for the Luxembourg National Research Fund (FNR), where she evaluates PhD and postdoctoral research proposals. An accomplished researcher, Dr. Sood has published extensively in reputed national and international journals and has authored and edited numerous Scopus-indexed books and book chapters. Her research primarily focuses on insurance, financial technology, risk management, sustainability, forensic accounting, and policy-oriented issues in finance. Through her interdisciplinary and applied research, she continues to contribute to both academic scholarship and industry-relevant knowledge at the global level.
